**Help for the industry – from the industry**

**Wednesday 6th April 2016**

# FREE Construction Health and Well Being Safety and Health Awareness Day

This is an event run by the industry for the industry as part of the UK-wide Working Well Together (WWT) campaign.

In recent years we have seen significant improvements in the management of safety within construction but unfortunately, the management of occupational health is not to the same standard. We aim to highlight some of the most important health issues specific to the construction industry and show you how to help prevent them.

If you have a small building, construction or contractigncompany, or if you are self-employed then then this **free** event is a **must**.

There is no charge for the event so **BOOK NOW** as places are limited.
