Help for the industry – from the industry

Wednesday 10th July 2013

Scaffold - FREE Construction Safety and Health Awareness Day

Work at Height operations continue to be the single biggest cause of deaths and serious injury in the workplace. As part of our ongoing drive to improve standards and reduce the number of injuries to scaffolders and the public, the Working Well Together Group, supported by the Health and Safety Executive, is holding a free seminar for local scaffolding contractors in South Wales.

This half day event is supported by the industry and is designed to suit the needs of those who specialise in scaffolding. The aim is to raise awareness of the health and safety issues facing your trade, and give practical advice on how to control and avoid risks.

If you run a small scaffolding company, or if you are self-employed and have involvement with scaffolding, then **this free event is a must.**

Come along to this event and **play your part** in making our industry safer. It is anticipated that your company will attend.

BOOK NOW! As places are limited

For further information call: 029 2026 3033

There is no charge to attend however, numbers are restricted to **two** representatives per company.
